**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Election/Restrictions***

The inventions are distinct, each from the other because:

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-20 drawn to a system including a badge, base and administration system classified in class 713, subclass 202.
- II. Claims 21-30, 57, 61-63, 69 drawn to a badge, classified in class 713, subclass 185.
- III. Claims 31-40, 58, 64-67, 70 drawn to a base, classified in class 713, subclass 155.
- IV. Claims 41-56, 59, 60, 68, 71-89 drawn to an administrator subsystem, classified in class 713, subclass 200.

Inventions stated in Groups I-IV are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention relating to a badge has details not required in the combination and may be used separately with a different base subcombination. The invention relating to a base has details not required in the combination and may be used with a different administration subsystem. The invention of the administration subsystem has details not required in the combination and may be used with a different base subcombination. See MPEP § 806.05(d).

Art Unit: 2132

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Groups II-III restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed( 37 CFR 1.143).

A telephone call was made to Attorney for the Applicants Mr. Charles Call on 7/01/2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of

Art Unit: 2132

the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment to inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
